About

Results-driven Back-End Developer specializing in .NET Core and Agentic AI development with LangGraph. Experienced in designing and implementing intelligent AI agents, orchestrating LLM-powered workflows, and building scalable backend services. Strong understanding of prompt engineering, LLM integration, and modern AI application architecture. Passionate about leveraging AI to create innovative, reliable, and high-performance solutions while contributing to a collaborative and forward-thinking engineering team.

Work Experience

DLL

Technical Developer

August 2026 – Present

Developing and maintaining scalable backend solutions using .NET Core and SQL Server, while building AI-powered applications for real-world use cases to automate business processes, enhance data validation, and improve operational efficiency through Large Language Models (LLMs) and Copilot Agents.

Payoda Technologies Pvt Ltd

Software Engineer

October 2025 – July 2026

Developed and maintained scalable backend solutions using **.NET Core** and **Microsoft SQL Server**, alongside building **AI-powered applications** and **agentic AI** tools to automate business processes, enhance data validation, and improve operational efficiency.

Software Engineer Trainee

July 2025 – September 2025

- Trained in Full Stack Development with a focus on **Angular**, **Dotnet Core**, **MS SQL Server**.
- Gained hands-on experience in **Data Science** and **Artificial Intelligence**, including data preprocessing, model building, and deployment.

Software Engineer Intern

October 2024 - June 2025

- Contributed to the development and maintenance of a scalable internal SaaS application built on a microservices architecture.
- Designed and implemented multiple functional modules, enhancing system performance, maintainability, and user efficiency.

Technical Skills

- Front-End Development: Angular
- Back-End Development: Dotnet, Fast Api
- Database: MS SQL Server
- AI: Generative AI, LangChain, LangGraph, MCP, Prompt Engineering

Education

MCA in NLP and LLM (Pursuing)

Jain University – Bangalore, Karnataka

B.Sc. in Artificial Intelligence and Data Science (2022 - 2025)

Karpagam Academy of Higher Education – Coimbatore, Tamil Nadu
